

News Release

Record RSS launch Inspection and Maintenance service for the North

With over 20 years experience of providing a successful inspection, maintenance and repair service from their southern office, Record RSS have now launched the service from their northern office in Selby.

It is the responsibility of the play provider to keep the play area up to standard (BS EN1176) and in a safe condition. Regular inspections significantly minimise the threat of accidents and extends the life expectancy of both equipment and surfacing. Ensuring that the play area is well maintained means that only risk that is meant to be there will remain. These inspections will flag up equipment at risk of failure, or any that has been damaged or vandalised. Having equipment regularly inspected, maintained and repaired reduces the number of complaints as responsive repairs are being carried out reducing the downtime of equipment.

Record RSS can provide regular Operational Inspections, Annual Inspection, Risk Assessments and DDA Assessments on all makes of play equipment. They can also undertake one off, regular, long term or contractual inspection and maintenance programmes to suit your budget, with prices starting from £40 per play area. Costs can furthermore be minimised by simultaneously undertaking any other general maintenance work.

These services can also be funded using the Pathfinder and Playbuilders monies. Plans should show how the recipient will ensure that the capital investment is sustainable in terms of protection of sites against vandalism and ongoing maintenance of sites. Their Support Body will be able to advise.

All inspectors and engineers are RPII (Register of Play Inspectors International) qualified and continually update their professional knowledge to keep them abreast of the industry and safety requirement changes.

If you would like more information on this exceptional service please call Caroline Thompson at the Record RSS northern office on 01757 703620 or alternatively Tracey Purslow at their southern office on 01784 483851 for southern based enquiries.

You can also visit www.recordrss.co.uk/maintenance.html for more details.
